

For People Living With Glaucoma

Questionnaire

Prescription eye drops are generally effective at controlling the high eye pressure associated with glaucoma, but they can cause unwanted side effects and challenges. Complete this form to help your eye care provider learn more about your experience with prescription eye drops, and determine if it might be time for a change in your treatment plan.

1

What difficulties or challenges are you having with your prescription eye drops? (such as difficulty putting in drops)

2

How many times a week do you miss a dose?

3

Have you experienced any uncomfortable side effects? (such as stinging, burning, redness)

Yes

No

4

Do you ever feel embarrassed by some of the side effects? (such as red or droopy eyes, loss of fat/fullness around the eye, discoloration)

Yes

No

5

Would you be interested in learning about a convenient alternative to prescription eye drops to help lower eye pressure?

Yes

No
